

Lady D KDP Interior Finalization Kit

Prepared for Susan "Lady D" Damon - generated 2026-07-01

Status: This is a production finalization kit, not a final KDP upload package. It defines the remaining publishing gates and the standard front/back matter system.

Completed Production Evidence

- 1,098 devotional day cards across the three volumes.
- Three master manuscripts and three companion journals in Markdown, DOCX, and PDF.
- Master assembly audit result: pass.
- Sabbath guardrail preserved with zero Sunday mentions in master artifacts.
- Nine 6 x 9 front-cover candidates and first-pass Path-route full-wrap drafts.
- KDP trim and cover readiness worksheet generated from current official KDP guidance.
- Volume 1 6 x 9 interior prototype package generated for the first seven devotional entries.
- Full Volume 1 6 x 9 interior review draft generated with all 366 entries.

- Public Vercel review page for author-facing review.

Standard Front Matter System

1. Half-title page.
2. Series page.
3. Title page.
4. Copyright page.
5. Dedication.
6. Author welcome.
7. How to use this devotional.
8. Scripture and permissions note.
9. Sabbath and grace framing note.
10. Reader orientation.
11. January 1 devotional entry.

Standard Back Matter System

12. Closing year-end reflection.
13. Companion journal invitation.
14. Prayer of surrender for the next season.
15. About Susan "Lady D" Damon.
16. About IDC Publishing.
17. Other volumes in the Lady D Devotional Library.
18. Acknowledgments.

Permissions Gate

- Keep references only and avoid full Bible quotation text.
- Or add full Scripture text only after selecting a translation and inserting its required copyright and permission notice.
- If using public-domain text, disclose the translation/source clearly and consistently.

Adventist Guardrail

Sabbath means seventh-day/Saturday Sabbath. Obedience must remain response to grace, not a way to earn God's love. Any final copyedit, typesetting, metadata, or marketing copy must preserve that theological frame.

Judge And Auditor Loop

19. Editorial judge: reader clarity, voice, flow, and author-heart fit.
20. Theological auditor: Sabbath frame, grace/obedience frame, Jesus-centered Spirit language.
21. Permissions auditor: Bible references/quotations, copyright notice, ISBN/imprint data.
22. Production auditor: 6 x 9 margins, page count, running heads, page numbers, image resolution.
23. Retail judge: cover thumbnail readability, Amazon metadata, description, categories, and series cohesion.
24. Proof auditor: KDP Previewer, printed proof, spine alignment, trim, bleed, and barcode area.
25. Final release judge: all blockers closed and no placeholder text remains.

Remaining Gates Before True KDP Upload

- Final paper type and trim choices.
- Final front matter and back matter approval.
- Final author bio, dedication, acknowledgments, and ISBN.
- Final Bible permissions statement.
- Final copyedit of all three manuscripts and journals.
- Full 6 x 9 designed interiors with locked page counts.
- Regenerated full-wrap covers from final page counts.
- KDP Previewer pass for each upload file.
- Physical proof review before public release.

Recommended Next Production Step

Use the full Volume 1 6 x 9 interior review draft as the next copyedit and theological proof surface. Once Volume 1 is approved and page count is locked, regenerate its full-wrap cover, then apply the same interior system to Volumes 2 and 3 and the companion journals.
