

LADY D DEVOTIONAL LIBRARY

Trilogy Proof And Copyedit Audit Pack

Mechanical, theological, repetition, and KDP proof evidence for all six current products

Generated 2026-07-01 from commit 9b18bee

Readiness Boundary

This package advances the proof lane, but it does not make the devotional library final KDP upload-ready. Copyedit, theological sign-off, final metadata approval, KDP Previewer, and physical proofs remain required.

Repetition Decision Surface

Repeated day titles and morning-impact lines are not automatically defects. They are now explicit proof decisions: accept as intentional series rhythm or revise before final upload.
