Proof Decision Resolution Pack

Operator queue for title, morning-impact, and theology proof decisions

Generated 2026-07-01 from commit 0a84f72

Readiness Boundary

This pack converts proof findings into decisions. It does not make any file final upload-ready. Applied manuscript edits, final proof, Bible permissions, ISBN/barcode, KDP Previewer, and physical proof review still remain.

Decision Snapshot

- Total decision items: 192
- Duplicate-title decisions: 150
- Repeated morning-impact decisions: 30
- Theology context decisions: 12
- Source words checked by upstream audit: 372,340
- Sunday mentions: 0
- Placeholder markers: 0

Volume Decision Breakdown

Volume	Title	Titles	Impacts	Theology	Total
1	Surrendering to God's Love	50	10	6	66
2	Walking with Jesus	50	10	4	64
3	Filled with the Holy Spirit	50	10	2	62

Priority Theology Contexts

Resolve these first because they touch the grace/obedience guardrail. Approve only if obedience remains response to grace, never a path to earning God's love.

Recommended Loop

- Resolve the 12 theology contexts first because they touch the Adventist grace/obedience guardrail.

- Decide whether repeated morning-impact lines are an intentional refrain system or should be individualized by month.
- Retitle duplicate day-title groups one volume at a time, keeping at most the strongest occurrence when a phrase repeats.
- Run a final copyedit pass after decisions are applied to the manuscripts.
- Regenerate final interiors and covers only after page counts are locked.
- Do not declare KDP final until Previewer and physical proof review pass.
