1 - Executive Summary

This proposal covers the current Lady D devotional publishing package as a professional, proof-gated publishing system. It keeps the strength of the original agreement while reflecting the expanded devotional-library work that now exists: a three-volume devotional series, companion journals, a visual devotional lane, review portal, dashboard, and KDP/digital publishing preparation.

TRACK	SCOPE	CURRENT STATUS
Devotional Trilogy	Three 365-day devotional books with author-review HTML editions and proof-PDF lanes.	Assembled for author/publisher review; not final KDP upload files yet.
Companion Journals	Three paired journals aligned with the devotional books.	Draft/proof lanes staged; final print locks pending.
Visual Devotional	31-day visual devotional lane from the earlier devotional concept.	Included in current package as a product lane.
Publishing System	Hub, invoice, dashboard, author-review site, Lady D site shell, and payment-link status.	Built into the review package and ready for corrected payment link.
Juan Damon testimony	Testimony/autobiography/memorial concept.	Separated from this invoice. Future scope only unless separately approved.

2 - Recommended Execution

Finalize first.

Freeze scope and source files before producing more assets. The project has enough material to move into proof discipline.

Publish with proof.

Move from review HTML/PDF drafts into KDP-ready interiors, final cover wraps, Previewer checks, and physical proof review.
