Release Boundary

This pack proves the proof-decision queue is clear. It does not make the library final KDP upload-ready; final copyedit, author approvals, ISBN/barcode, locked covers, KDP Previewer, and physical proofs still remain.

Next Gates

- Full author voice copyedit and devotional flow pass.
- Final front matter, dedication, acknowledgments, bio, ISBN, and barcode.
- Bible permissions decision if quotation text is added.
- Locked page counts and regenerated final full-wrap covers.

- KDP Previewer pass and physical proof review before public release.
